## SUMMARY

Full Stack Web Developer with a food industry background, ready to use my effective communication skill, and problem solving to create simple and friendly applications. Already happy to work and contribute among teammates and guest, guest first mentality.

## TECHNICAL SKILLS

### Languages:

- JavaScript
- HTML
- CSS
- Spanish

### Tools:

- Handlebars
- Node.js
- Express
- Git
- MySQL
- Sequelize

## PROJECTS

### Workout Buddies:

Simple application that allows user to create account, after they can create workouts to be share among all users of the application.

**GitHub:** <https://github.com/Tuzosdaniel12/Workout-Buddies>

**Deployed Project:** <https://workout-buddies.herokuapp.com/>

**Tools:** Js, Css, Bootstrap, Sequelize, Node.js, express, handlebars, Nodemailer, Mailgun, Passport, JWT, Axios

**Role:** In this project I had the role as team lead, as a team lead, I created a to do list of what was needed from the front end and back end team needed. Created the database, worked with Account activation, Authentication, and forgot email, routes as well as all rendering all data to the handlebars templates created by front end team.

### Movie Trailer Match-Up:

Simple application that uses that lets the user find trailers based on there searched movie, upcoming, now playing, popular, or top rated.

**GitHub:** <https://mfrisch87.github.io/MovieTrailerMatchUp/>

**Deployed Project:** <https://github.com/mfrisch87/MovieTrailerMatchUp>

**Tools:** Js, Css, Bulma, Youtube Api, OMDb Api

**Role:** In this project I had the role as team lead, as a team lead, I created a to do list of what was needed from the front end and back end team needed. Spend most of my time teaching and leading front-end team on the design of the project. Helped the back end team on connection of API and rendering the data back to the user.
